MIDDLETWIN

A BOARD DECISION BRIEF

Run your club all year.
Run your show with confidence.

Choose the tools for your organization

CLUB MANAGEMENT

Membership, dues, activities and club communications, together with event tools for the shows your club runs.

CAR SHOW ONLY

Event registration, payments, dashcards, vendors, voting and judging, without club membership management.

Store and kiosk capabilities are included with both account types.

What to confirm before approving

Fit: Choose two real tasks to demonstrate, such as member renewal and show registration. Include the officers who will use them.

Cost: Review the current pricing calculator. Confirm your club or show plan, payment processing, optional services and post-event access before committing.

Ownership: Name a setup lead and a backup. Agree who manages membership, finances, registration and awards.

A practical setup sequence

1. Book a focused demo with your questions and event date.
2. Select a plan and confirm the setup and data-import approach.
3. Configure the relevant memberships or event, payment settings and staff access.
4. Review the member or participant journey before opening it to your audience.

“It's a really well thought out application that does everything we need it to!”
